CHANNEL CONNECT

ResAvenue offers a powerful yet easy to use channel management solution that allows you to manage your online distribution with ease. No more multiple logins required. ResAvenue Channel Connect seamlessly connects to major OTAs / sales channels. You can efficiently manage availability, rates and inventory across multiple OTAs, all from a smart single interface.
Rate / Inventory Management
Change rates and availability for selected days and room types, across extranets in real-time. Save hours in managing rate parity across OTAs.

Bulk Updates
Easy interface for quick bulk rate and inventory updates across extranets. Update rates of selected room types and rate plans for specific date ranges and days of the week.

Room Mapping
Map a room to several room types on different extranets to help you maintain rate parity and common inventory pool with ease to avoid overbookings.

Competitor Analysis
See your competitors' selling prices across multiple sales channels and OTAs worldwide. Evaluate your position and adjust your prices to maximize your revenue.

Room-Rate Linkage
Use one single master room to automatically change rates proportionately for different kinds of rooms, by setting up pricing rules between various room / rate types.

Booking Updates
Get real-time updates of bookings from multiple sales channels consolidated into a single, easy to manage interface that auto-decrements inventory to avoid overbookings.
